Thank you for visiting our website and requesting further information about our line of Shaker Furniture Reproductions. We are quite proud of the work we have done over the past thirty years, and we hope to continue our tradition of excellence by building furniture for your home.

We started building Shaker Reproduction Furniture in Bethel, Maine in 1974 and we have shipped around the globe ever since. We take great care in seeing that the furniture you ask us to build arrives on your doorstep much the way you anticipated. It is very difficult to describe in words and pictures the process of making furniture that will last a lifetime and we trust you have found us because you all ready recognize the value of purchasing "built-to-order" furniture direct from the maker. We are confident you will not be disappointed.

The information enclosed will help you price and place an order with us. We will send additional information on an item on our Price List at your request, but we strongly urge you to utilize our website:

<http://www.stimberlake.com>

We are able to post answers to your questions and photographs of products on our webpage "Most Requested Items of the Week" within a short time and you may print these pages from your personal computer. The Internet has proven time and again to be a most helpful presentation tool for us. We also encourage you to call us directly. We would enjoy meeting you and talking about hardwood furniture and how we may assist you with your interior design and custom furniture ideas.

We have begun something of a tradition with our first time World Wide Web customers over the past twelve years, and that is affording you 10% off your first invoice toward the purchase of our chairs (though this may not be used toward the purchase of our on-line "Featured Item"). We call it an "introductory offer", but you can think of it as our small gesture of continuing the legacy of Shaker design, a truly remarkable style. We urge you to use this savings to make a donation to a community's restoration efforts. A list of communities may be found on our website.

Again, we thank you for looking us up and calling on us in the future. We look forward to becoming your furniturermaker.
